

ZIM BYTE

SPECIFICATIONS

LENGTH	12 FT
BEAM	4.3 FT
SAIL AREA	58 FT ²
HULL WEIGHT	100 LB

The Byte is a fast and fun singlehanded one-design dinghy. It was designed to be an affordable performance boat that can be used for racing or recreational sailing. The Byte provides an all-important first step for young sailors outgrowing the optimist. The controls for vang, outhaul, and cunningham are all led to either side of the boat's deck with multi-purchase, ball bearing block systems. The vang can be adjusted, on a full plane, from the cockpit, effortlessly! The Byte can be upgraded with a Byte CII carbon fiber mast and mylar sail as the sailor progresses and desires a higher performance boat.

CONSTRUCTION

- Glass reinforced polyester, foam sandwich
- All cockpit fittings are supported by tapped aluminum backing plates
- Full anti-slip deck

HARDWARE

- Safety grabrail for capsized recovery
- Cockpit bailer

SAILS & RIGGING

- Dacron sail
- Aluminum mast and boom
- Vang, outhaul and cunningham controls are led to each side deck as standard
- Hiking straps can be set up as single or pair.
